

LBX

YOUR PROJECT. YOUR LBX.

The 3 manual LBX models are suitable for bending steel sheets up to a maximum sheet thickness of 0.63 mm. Its unusually low weight and compact design make the LBX a particularly powerful tool for professional metalworking on the job site.

BENEFITS

- ✓ **Durable** and compact construction
- ✓ **Easy to carry:** 2 people is all you need to move the LBX 200/250 to a new location – no crane required
- ✓ **Wear-free** and maintenance-free roller bearings
- ✓ **Wide range of extensions** possible
- ✓ **Adaptable** through the replaceable upper rail for different materials and thicknesses
- ✓ **Force-saving:** a counterweight holds the upper beam at every opening width
