

The Schechtl TBS is the smallest in our range of manual segment swivel bending machines, but a giant when it comes to flexibility on the job site. Its compact dimensions allow you to move the TBS around easily on the job site – between floors, on scaffolding and in small areas. Moreover, the TBS can be installed on a workbench or in a construction vehicle.

## **BENEFITS**

- ✓ Bending boxes, cassettes & co. on the job site
- ✓ Rational and productive all segments are adjusted without the use of tools
- ✓ Without effort: 1 man working alone can transport the TBS quite easily
- ✓ Flexible: Easy installation on any workbench or in a van
- ✓ Safe storage of the segments in a separate case
